Thanks Melinda.

It's slowly getting there and glad to see they'll post an update.  
If they don't e-blast the update out, in addition to posting on the website, then I'll contact them.

Hi Ana and Aaron,

See below from the latest response from DOT regarding My Fig:

You can expect to see an update on the My Fig website on Monday, however currently we are aiming to begin the major work on Figueroa by the end of February/beginning of March. We are reviewing and finalizing the temporary traffic control plans that have to be implemented so that we can safely and efficiently do the work on Figueroa. Now that our permits are basically finalized and that there isn't anything left impeding our progress, we expect to have a much more accurate and reliable schedule in the coming 2 weeks or so.

The general idea hasn't changed from our original plan to start at the south (MLK) and move north.

—

Do not hesitate to reach out to David or myself should you have any questions. We will keep you informed as updates come in.

Best,

I thought so, for this thursday the 7th, right?  
I've got it on my calendar.  
It's from 3-5pm at the South Park BID office.

By the way, the project was officially advertised by the City on Friday.

Thanks.  
Aaron
